

CLIPSREEL TUTORIAL- How To Create Video By Copying And Pasting Your Content

Follow these simple steps below:

1. In order to create video in ClipsReel by copying and pasting your content, click on "Create Video" tab present on the left side of screen.

CLIPS REEL	Dashboard BLOG POST OR ARTICLES COPY & PASTE YOUR CONTENT ECOMMERCE DETAILS PAGE	CREATE VIDEO
Create Video Connect Social Accounts Ovirtual Accounts	Enter a url of your article or blog post Go through the Tutorial	
 Client Accounts Training 	Enter your article URL	60.)
	TERMS PRIVACY SUPPORT © 2019, Developed & maintained by Vega6	

2. Click "Copy & Paste Your Content" then enter or paste your content. You will automatically create a story and bring you to storyboard customization window where you can customize the video.

Note: To separate story you can use [CLIPSREEL] as separator for multiple lines in your story board.

3. Customization Tools

- a. Campaign Name- Enter the name of the campaign you wish. You can still change it later on.
- b. **Resolution** it refers quality of your video. You can choose from the drop down according to your preference.
- c. Render As- here you can choose the format for your video. It can either be an MP4 of GIF.

4. Editing Tools

a. **Story-** To start creating your video, kindly click on text area on image and edit your content accordingly.

b. **Text-** This allows you to edit the text properties such as the font size, font style, text color, and position.

c. Media- this tab is where you can search for a pre-uploaded image/video and also lets you upload your own.

d. **Audio-** this is where you can add music to your video. You can use the pre-uploaded ones or upload your own. It also has a text to speech feature you can insert to your video.

e. **Style-** this is where you can add/remove a watermark, add a logo, insert video frames and some graphics to add life to your video.

f. Credits- this is where you can add an introduction and an ending credits to your video.

5. Once you're done editing your video, click on **Publish Video** on the upper righthand corner or if you don't want to publish it yet and want to continue editing it, click on Save & Edit Later.

6. You can see your created videos on the Manage Videos tab on the app dashboard.
