

Step 1- To Integrate with **Syvid** enter this url in the address bar- app.syvid.io and login with your syvid credentials.

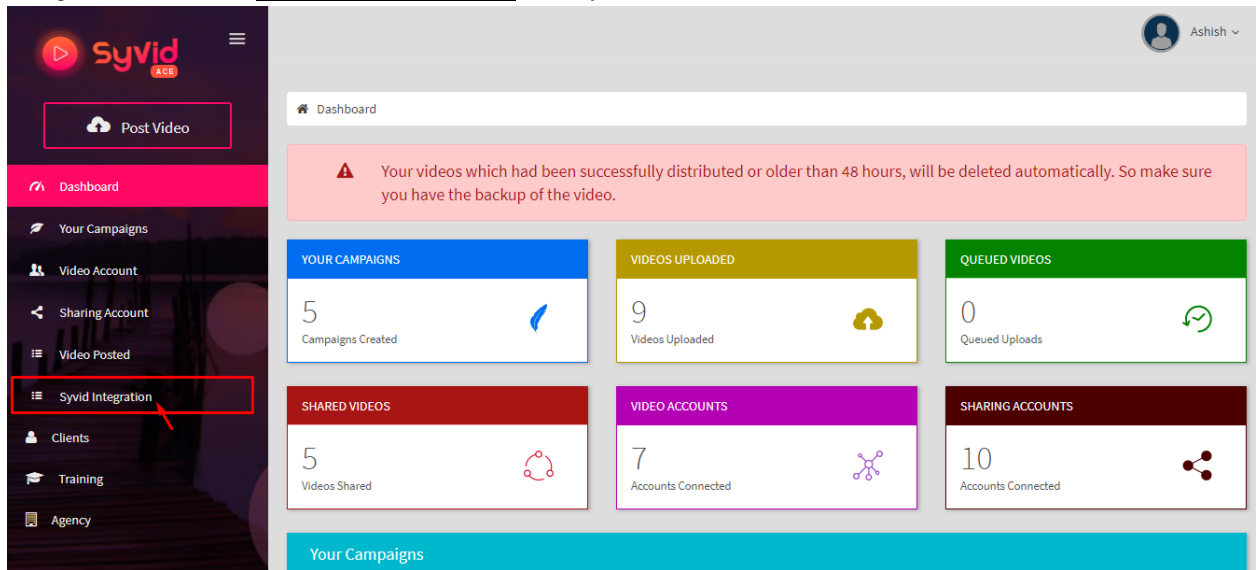

You will get this screen as your Dashboard

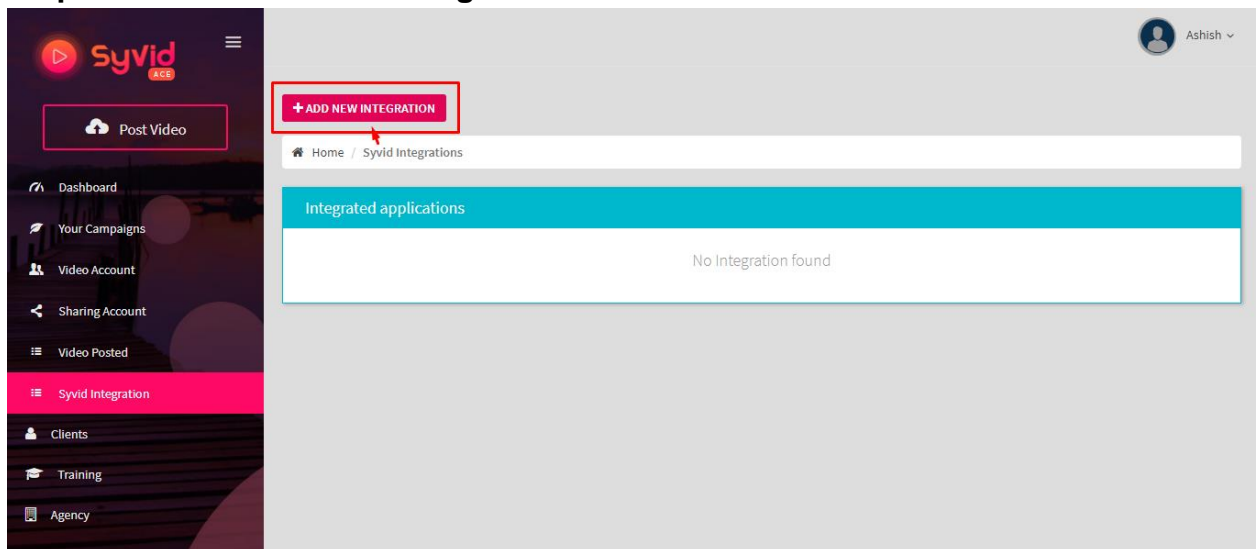

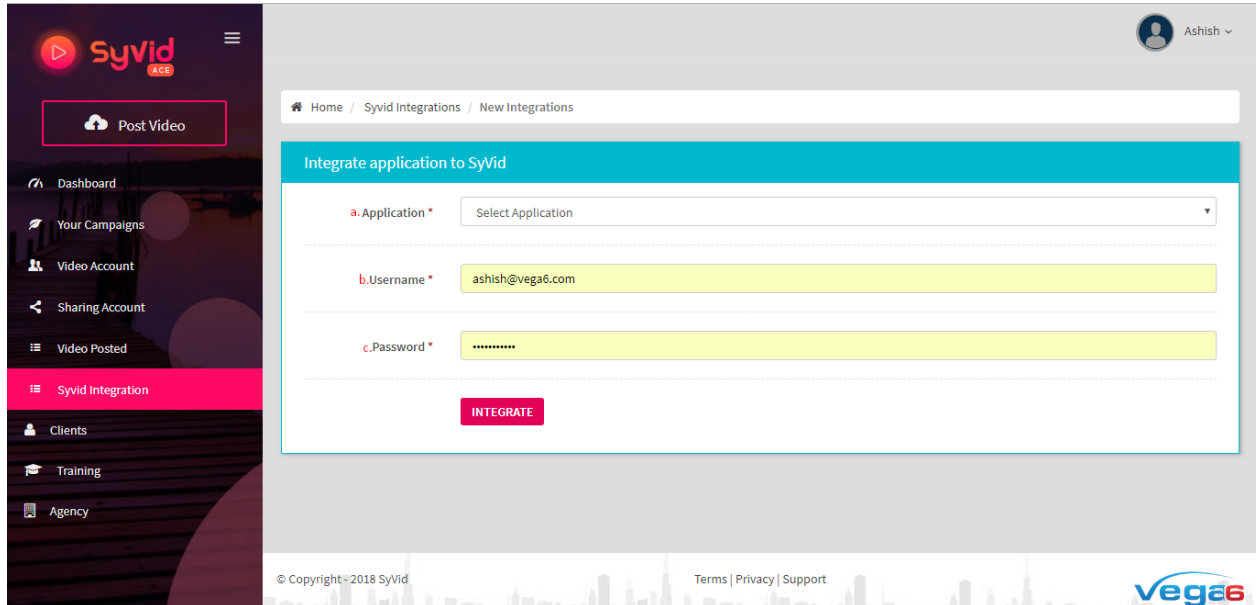

Step 2- Click on “Syvid Integration” tab present on the left side on dashboard.

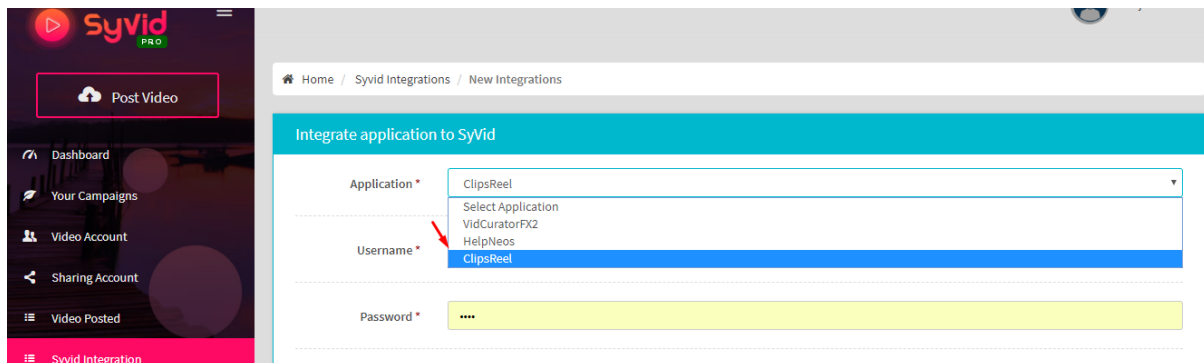

Step 3- Click on “Add new Integration” tab.

Step 4- Upon clicking on add new integration you will get this window.

a. Application-You need to select **Clipsreel** from the drop down.

b. Username-You need to enter application username.

c. Password-You need to enter password

Step 5-Click on “**Integrate**” tab when you are done with selecting application and entering Username/Password

A screenshot of the Syvid web application interface. On the left is a dark sidebar with a menu including "Post Video", "Dashboard", "Your Campaigns", "Video Account", "Sharing Account", "Video Posted", "Syvid Integration" (highlighted in pink), "Clients", "Training", and "Agency". The main content area has a breadcrumb trail: "Home / Syvid Integrations / New Integrations". Below this is a form titled "Integrate application to Syvid". The form contains three fields: "Application *" with a dropdown menu showing "ClipsReel", "Username *" with the text "ashish@vega6.com", and "Password *" with masked characters "****". A red arrow points to a pink "INTEGRATE" button at the bottom of the form. The footer includes "© Copyright © 2018 Syvid", links for "Terms | Privacy | Cookie Policy | Support", and the "vega6" logo.

You will be notified upon Integration and you can check with integrated application.

A screenshot of the Syvid web application interface showing the "Integrated applications" page. The sidebar is the same as in the previous screenshot. The main content area has a breadcrumb trail: "Home / Syvid Integrations". At the top of the main area is a pink button labeled "+ ADD NEW INTEGRATION". A green notification banner at the top right says "✓ Integration saved successfully". Below the banner is a section titled "Integrated applications" which contains a table. The table has four columns: "APPLICATION NAME", "USER ID", "STATUS", and "ACTIONS". The table is currently empty.
